

Missing Persons: Essays on Character and Characterization in Modern Drama

In the hands of the twentieth century's most innovative dramatists, characters have revealed their identities on stage in a variety of unconventional ways: they speak with electronic voices or engage in solipsistic monologues; they are lost in self-conscious third-person forms of communicating; or they are expressed simply as movement, sound, and decor. *Missing Persons* is a study of character and its representations on the modern stage. Within broad literary contexts, William E. Gruber addresses specific questions about the *dramatis personae* of the playwrights Gordon Craig, Bertolt Brecht, Samuel Beckett, Thomas Bernhard, and Maria Fomes. Gruber attempts to restore character to the current discourse by developing a vocabulary for discussing it in plays in which conventional terms seem insufficient or irrelevant.
