

The Fourth Continuum

Though the sights and sounds of conflict are absent, the world is at war. The battles take place beneath the surface and behind the scenes of everyday life. The implements of destruction are political manipulations, legislative decisions and social activities. Those carrying out the underground assaults are everyday people from all walks of international life who conduct their double lives while hiding in plain sight. They are the international soldiers of the clandestine Reich, code named The Fourth Continuum. Directed and financed by the German-led European Union, they are gearing up for another attempt at world domination. One man is desperately trying to warn the nations of the danger within their midst. His efforts take him around the world as he works from within the European Union to expose the deadly secret agenda of the rapidly growing colossus before its too late.
