Forty is Just a number. But catching her husband in bed with another woman does little to help Sylvia deal with her ever worsening midlife crisis. Degwood Collins is not a Crack Dealer. Especially now he only has half a head! Two kilos of Crack Cocaine is worth a lot, but is it really worth three lives? Vladimir Mijatovic is owed a debt... .. and now is the time for repayment! CRASHDUMP is the latest novel from Colin Payne, set over just twelve hours in a nocturnal London where fear, terror and death have replaced all semblances of normality. It is roller coaster ride of a story, one you will not want to get off of until the thrilling climax.
