

Dangerous Friends (A Carlos McCrary novel Book 4)

A fast-paced action thriller about ecoterrorism, political corruption, and felony murder. Chuck McCrary is a wisecracking former Green Beret turned private investigator with a special genius for helping people in trouble especially if they can pay him for his efforts. Michelle Babcock, the granddaughter of South Floridas legendary restaurateur and Chucks friend, Hank Hickham, has disappeared. She wakes Chuck with a 4:30 a.m. phone call, desperate for help. James Ponder, her drug addicted boyfriend, has involved her in a double murder that could put her in prison for life unless Chuck can find her a way out. Michelle only expected free tutoring in college chemistry when she slept with James Ponder, a graduate student obsessed with global warming protests, who has a talent for ecoterrorism. Instead, she is sucked into an unhealthy circle of friendships surrounding an amoral professor whose secret agenda has yielded him millions of dollars with more loot to come. Michelle is swept up in a nightmare of political corruption, terrorism, and mega-million-dollar crimes. Chuck uncovers a conspiracy involving arson, murder, and the Chicago mob. A mysterious millionaire has masterminded a string of mega-million-dollar stock market scams that reach back for five years. The mastermind intends to cut his losses by murdering anyone who can lead the cops back to him. That includes Michelle, Chuck, and the conscienceless professor, who becomes Chucks unwilling ally. ### One reason we keep turning pages in Dangerous Friends is to watch the gripping character of Chuck McCrary. The skill with which he handles clients, police detectives, mob assassins, and FBI agents all while controlling the outcomes of the case is as remarkable as the clues he uncovers. Chuck seeks justice without regard for the legalities involved and tries to leave the world just a little better than he

found it.
