

## Burning the Middle Ground

Burning the Middle Ground is a dark fantasy about small-town America that transforms readers fears about the countrys direction into a haunting tale of religious conspiracy and supernatural mind control. A character-driven sensibility like Stephen Kings and a flair for the bizarre like Bentley Littles delivers as much appeal for dedicated fans of fantasy and horror as for mainstream readers looking for an exciting ride. Brian McCullough comes home from school and discovers that his ten-year-old sister Fran has murdered their parents. Five years later, a journalist, Ronald Glassner, finds Brian living at the same house in the small town of Kenning, Georgia. Planning a book on the McCullough Tragedy, Ronald stumbles into a struggle between Kennings First Church, run by the mysterious Reverend Michael Cox, and the New Church, run by the rebellious Jeanne Harper. At the same time, Kennings pets go berserk, and dead bodies, with the eyes and tongues removed from their heads, begin to appear.
