

The NorEaster Murders

Boston Police Lt. Detective Bill Shultz Moran and local townie Mickey Mickey O'Halloran are two very different men with two very different problems. Terrible, intractable problems. Each, the kind of problem that can end up defining an entire lifetime. Tonight, each man will be offered resolution from the same omnipotent source. Divine intervention? Sure, if that's how you wish to see it. Why not? Since the beginning of this murderous winter, plenty of others within the Boston Metro Area have already taken that offer a free ride on a prolific serial killers coattails to transform their own lives through the elimination of intractable problems. Mercy killings, if you will. Free murder made possible . . . perhaps inevitable . . . by a series of noreaster blizzards and the innovative use of DPW plowing crews to destroy all forensic evidence, as a brutal killer schools an entire city on how quickly things can turn if you simply allow your fingers to close around what's been pressed into the palm of your open hand.
