

Ogilvies Act of Cowardice (James Ogilvie)

Britains Raj seems to totter on the brink of disaster. Invasion threatens from the north, a rebellious southern princeling plots insurrection in a distant province, and Ogilvies regiment is called to the rescue. Battling a horde of rebels against overwhelming odds, the young Captain must protect his men from the mad egotism of a temporary commander - and he must also avert a sudden and catastrophic end to his own military career.
