

Hook Island: A Becky Bing Mystery

Becky Bing does a favor for a friend that takes her to a defunct factory on Hook Island. She gets lost in a maze of underground tunnels. While trying to escape she witnesses an illegal operation led by their high schools most popular personality. The dilemma soon intensifies when the ring-leaders body is found floating in the school pond. Becky and her friend, Andy, flirt with danger piecing the puzzle of the bizarre homicide on their own. They use cell phone apps, internet research, and computer software to identify suspects. The most effective tools, however, come from lessons learned in the classroom. The twists and turns will entertain all readers who love a good, unpredictable mystery with surprises. Hook Island is the first in a series of mysteries featuring Becky Bing, the undisputable, new Nancy Drew.
