

Dangerous Games (Tess McCallum & Abby Sinclair Book 3)

Maverick FBI special agent Tess McCallum (nicknamed Super Fed by an adoring media, the central investigator in previous novel Next Victim) is back, and she has got a new partner one she does not want and does not trust. She is chasing a vicious kidnapper known as the Rain Man, who leaves his victims chained up in a vast storm drain system underneath Los Angeles, doomed to drown unless their ransom is paid on time, and only by the City of Los Angeles, to his offshore bank account. A freelance security agent named Abby Sinclair, who specializes in putting stalkers behind bars, often by extra-legal means, has already had her hooks in the case for a while and is working for a woman who may have been targeted and who does not trust the authorities to protect her. Since a rainstorm has already started, the time available to save a woman's life is very brief and there are already two dead victims to demonstrate the high cost of making mistakes or even just being too slow to act. Only by working together can the two investigators piece together the clues to help them figure out who (and maybe even how many people) the killer really is. Nail-biting suspense, unexpected story twists, and surprise piled upon surprise all work together to deliver an irresistible read and an incredible page-turner of a story.
