Soul search your own path of independent thinking. Consider the freedom and costs that may go with it. John Toker applies his years as a psychotherapist and as a learning specialist to empower his readers through insightful observations and questions about humanity. He brings attention to social engineering and how it relates to individuality. Frank Thomas must deal with the stress from training to be a psychotherapist in psychiatric hospitals, heal from his fathers death, and wake to his young nephews life-threatening illness. He is ultimately consumed with questioning who is sane and what makes for a functional philosophy on how to lead his life. Excerpts from *Conflicting Sanity* What would become of this tragedy? Would he also succumb, like those who have surrendered to lifes hardships? Give up on his spirituality? Or would this be a growing experience? Could he learn from this loss and help others? Reaffirm his vigor for life? To reveal any self-doubts about his lonely dawning would assuage their issues with him as having all the answers, yet, he perceives, douse his credibility in kerosene. As a psychotherapist, the fuel of being vulnerable would be ablaze.
